

KANSAS RAIN STORM.

Many Lives Lost and Much Live Stock Drowned—Railroads Damaged.

St. Louis, April 23.—Dispatches from Southeastern Kansas report the heaviest rain fall since Tuesday that has ever been known in that part of the State. Over twelve inches of water are said to have fallen. All level country is submerged and is a vast sheet of water. Traffic on the Missouri, Kansas and Texas Railroad many miles each way from Parsons is suspended, and a passenger train which left Parsons yesterday morning for Scott and Gulf Road, was wrecked not far from town. A large number of hogs and cattle in the stock yards on the Labe River, one mile from Parsons, were drowned, and, it is said, hundreds, perhaps thousands, of animals have been drowned in the surrounding country. The streams rose so rapidly, and the water poured down in such torrents, that little, if anything, could be done in the way of rescuing live stock or securing other kinds of property. Fields are devastated in all directions, and great destruction of crops and movable property has occurred. A negro settlement near Parsons was inundated and many of the people were rescued only after great difficulty and hard labor with improvised boats and other means. The Marston River, which runs near Fort Scott, overflowed its banks with a rush and submerged a settlement of from 600 to 800 population, known as North Fort Scott, the water standing in many of the houses from three to five feet deep. All the people were rescued, however. The Missouri Pacific Railroad track is badly washed out. Both ways from Fort Scott and no trains have moved since Tuesday. The Wichita Road is also badly washed. A freight train on the latter road went through the bridge at Clearwater, and Frank Daniels, the engineer, was drowned. At last accounts the water was subsiding, but it was still very high, and it will take several days for it to run off.

Traffic on the Wichita and Western Railroad, between Wichita and Kingman, is suspended, and the bridges on that road and the Atchison, Topeka and Santa Fe at Cheyenne, Kansas, are washed away. Other dispatches state that the storm extended into western Missouri, and that many streams have overflowed their banks; that much property has been destroyed and that railroads have been washed away in places and traffic greatly interrupted.

Advices also come from northern Texas noting very heavy rain fall, extending over a large section of country, embracing Denton, Gainesville, Fort Worth, Dallas and other places. At Gainesville, Pecan and Elm Creeks overflowed their banks, and besides washing away much property. Women and children, clinging to branches of trees for hours before they were rescued, and in some instances whole families were swept away in their houses, but in most instances they were rescued. Several streets in Dallas were damaged with water, and a high wind deluged a number of houses. The Red River is very high, and at last accounts was rising rapidly, and fears of great damage along its banks were apprehended.

Terrible Cyclone.

GALVESTON, Tex., April 23.—The News-Mexico, Tex., special says that Prairie Grove neighborhood, eight miles south of Mexia, was visited yesterday afternoon by a severe cyclone, causing serious results in life and property. A two-story school house, in which were about fifty children, was blown down and torn to pieces, killing one and wounding several children. The casualties are as follows: A fourteen-year-old daughter of J. P. Swing, killed; Estelle Cooke, leg broken; two children of E. Herring, legs and arms broken; two children of Mr. O'Hara, legs broken and injured internally. The house of B. McKinnon was blown down, severely injuring McKinnon. The storehouse and postoffice, owned by S. D. Hughes, was demolished and goods promiscuously scattered. The residences of M. B. Cox, H. Thompson and L. J. Williams were demolished. Larkin Gentry's house, some distance from the village, is also reported demolished and himself, wife and child killed. Other serious results are probable, as the country is thickly settled in the direction which the storm took.

Oklahoma Boomers.

They Have Resolved to Disperse for the Present to Facilitate the Speedy Settlement of the Question.

ARKANSAS CITY, April 23.—The Oklahoma movement collapsed yesterday, so far as any present attempt to reach Oklahoma is concerned, and the boomers have decided to go home and await further action on the part of the Government. When Captain Couch, their leader, went to Washington two weeks ago to personally state his case to Secretary Lamar there were some few who believed that favorable action would be had, but when Secretary Lamar told Couch that he and his men must keep out of Oklahoma, and that the cattlemen might go out also, the boomers accepted the situation for the time being.

Captain Couch, who came back from Washington on Monday, was joined here last night by Sidney Clark, who has been representing the boomer interest in Washington for several months. Late in the evening a consultation was held with a special committee of ten of the boomer leaders as to what should now be done. One or two hot-heads among the boomers were for literally ignoring the wishes or decisions of the Secretary or the President, and the consultation lasted late into the night, and finally a report was arrived at. There was a good deal of bitterness displayed, and an attempt was made to defeat the report prepared by the Special Committee, but it was finally adopted and read as follows:

Whereas, The members of Payne's Oklahoma Colony have received the report of Captain Couch, General, and Sidney Clark, who presented our situation and views to the President of the United States of America, and to the Secretary of the Interior, and solicited favorable action in our behalf; and

As soon as practicable, we deem it advisable to wait for a reasonable time for the contemplated action.

Resolved, That the headquarters of the colony shall remain at Arkansas City, Kan., until a more suitable place be secured by the officers of the said colony.

Immediately after the meeting preparations for removal began, and it is thought that within forty-eight hours, at least two-thirds of the colony who have been lingering here for weeks, will have departed. The men accept the situation quietly, but say they will be ready to again take the field whenever Captain Couch calls upon them.

Seymour's Budget of News.

Seymour, Ind., April 23.—Joshua Hardesty, of Newry, who was burned out recently, has taken a new departure. It is claimed by all his neighbors that since the death of his third wife, some two years ago, he has been living in open and notorious adultery with Mrs. Cochran of the neighborhood, and that his every day conduct was so objectionable that he has been skedaddled between two days, taking this woman with him. She abandoned her nine-year-old daughter, who is bright and intelligent, and who was taken charge of by Mr. G. W. Mitchell, Township Trustee, and placed in the County Asylum. Hardesty is some fifty-five years old and the father of James H. Hardesty, who is in jail at Indianapolis on the charge of passing counterfeit money.

Six farmers residing in Hamilton Township had near 300 acres in wheat, which they are plowing up and will plant to corn and oats. The Commissioners have just settled with the Trustees, and find their reports all O. K. Miss Nellie Wilson was summoned to Madison last night, in response to a dispatch from the court, to appear in the grand jury having failed to indict Henry England on the charge of perjury, he was released from the County Jail yesterday.

The farm residence of E. S. Crabb, three miles west of town, was burglarized Tuesday while the family were at the Doris school and stole a new suit of clothes and many other articles of value.

A Quixotic Association.

New York, April 23.—The American McAll Association, which is an organization of American ladies, formed two years ago, to help Rev. R. W. McAll to rescue France from the infidel, held the first session of its second annual meeting here to-day. Delegates attended to the number of about 100, from twenty-six auxiliaries of cities in the States of New York, Massachusetts, Maryland, Pennsylvania, Ohio, New Jersey, Connecticut and the District of Columbia. The wife of ex-President Hayes and the widow of ex-President Garfield were among the number. Mrs. Mamie J. Chase was elected to preside. Mrs. Goddard, President of the New York Auxiliaries, welcomed the delegates. Rev. Martin L. Berger, Secretary of the association, reported that during the year he had represented the association in delivering ninety-two addresses, in forming auxiliaries at Troy, Newark, Elmira, Albany and Rochester, and in sending \$9,124 church collections and individual contributions to the treasury of the association. The session of the body will last to-day and to-morrow.

Reports He Killed Three Men.

MEMPHIS, April 23.—Martin Mitchell, who keeps the fishing ground at Black Fish Lake, Ark., twenty miles west of Memphis, came to the city late last night and reported that he had shot and killed three men, yesterday, in St. Francis County, Arkansas, about twenty-five miles west of Black Fish Lake. It seems that about two weeks ago Mitchell was shot at by two men named Cummins and Barton and slightly wounded. Yesterday, he met them in St. Francis County and a regular battle was opened between them. Mitchell says Cummins, Barton and another man who was with them opened fire on him first, he returned with Winchester repeating rifle, killing them all. Mitchell received one shot in the arm. He came here to deliver himself up to the Sheriff of St. Francis County, who was in Memphis in attendance at the races.

Crop Reports and Prospects.

TOLEDO, O., April 23.—Messrs. C. A. King & Co., of this city, to-day publish the result of 900 crop reports from grain dealers in Ohio, Indiana, Illinois, Michigan, Kansas and Missouri, received during the past five days. One-third of the reports say the prospects are favorable for winter wheat; one-quarter say poor, and nearly one-half say very poor. Illinois and Kansas promise the poorest, Michigan the best—better than last year. One-half report prospects better than a fortnight ago; a quarter say as good, and a quarter worse. Illinois is the only State which does not report an improvement. The latest reports are the best, especially from Kansas. One-third report half of the old crop remaining; one-third a quarter; one-third 10 to 20 per cent, and others less. Seven-eighths of the farmers are disposed to hold, owing to the poor prospects of war rumors.

To Be Sold at Sheriff's Sale.

PERU, Ind., April 23.—A judgment and decree of foreclosure has been rendered by the Miami Circuit Court against Benjamin F. Dow & Co., for the sale of all the building, machinery and lands owned by said company situate in the edge of this city, in favor of Charles Brownell for \$30,117.50. B. F. Dow & Co. came here from the east about five years ago, and after liberal assistance, etc., established the above named company for the purpose of manufacturing separators steam engines, etc. The business was carried on extensively until this winter, when the factory shut down, paying only a portion of the wages due its employees. The property will probably be bought at sheriff's sale by Mr. Brownell, but what use will be made of it is at present unknown.

A Shocking Discovery.

St. Louis, April 23.—A Chattanooga special to the Post Dispatch says: A shocking discovery was made last night near Spring City, Tenn. The putrefying remains of James Sloan were found in the woods near the house of his uncle, one of the leading men of that section. Sloan had been missing for a long time, and his body had evidently been in the woods four weeks. The remains were shockingly mutilated by some beast. A note was found on his person saying he had killed himself, but this is thought to be a blind, and it is suspected that he was murdered.

Sleaze in a Restaurant.

KANSAS CITY, Mo., April 23.—A young man, under twenty years of age, walked into a Main street restaurant to-day, ordered dinner, and after dispatching it, drew a revolver and shot himself through the brain without rising from the table. A card on his person

bore the address, "J. Edwin Liddy, New York, Ind. He is now in a dying condition at the City Hospital."

Broken Out Again.

CHICAGO, April 23.—A special telegram received this morning by the Breder's Gazette from Dr. N. H. Paaren, State Veterinarian of Illinois, announces that pleuro-pneumonia has again broken out in the herd of Jersey cattle belonging to Mr. Bailey, of Peoria, Ill. This is one of the herds in which the disease played such havoc last autumn and it was hoped that it had run its course there and that the herd could be released from quarantine. But this fresh outbreak conditions that has previously been said about the insidious nature of this malady, and Dr. Paaren has determined to at once have the entire herd condemned and slaughtered as the only effectual method of stamping out the disease. It is reported that he has decided to recommend similar course with all the herds now in quarantine.

Catholic Ordinations.

BALTIMORE, April 23.—At St. Mary's Seminary yesterday Bishop Gibbons, of Montana, acting for Archbishop Glenn, ordained to the priesthood Thomas Reilly, of the Diocese of Columbus. O. Bishop Glenn ordained to the diaconate Mr. Reilly and Frank N. Perry, of the Chicago Diocese, and E. Fallon, of the New Orleans Diocese.

Captain Mitchell, of the bark Antonio Sala, New York and Havana trade, came home in May, entirely helpless with rheumatism. He went to the mountains, but receiving no benefit, at his wife's request began to take Hood's Sarsaparilla. He immediately began to improve, in two months his rheumatism was all gone, and he resumed command of his vessel a well man. Hood's Sarsaparilla will help you. Sold by all druggists.

Bill Nye in Italy.

A railway connects Genoa with Turin. I tried to get a pass over this road, but met with only indifferent success. The road is run almost exclusively by foreigners, and the employees are largely foreigners. Wherever I go in Europe I meet with this great drawback and stumbling block to my enjoyment. So I did not make the railway authorities understand about the pass, and after both arms had been talked loose I said it was no matter; I would sooner walk anyhow. Still I shall leave Italy with an unfriendly feeling toward this road, and shall do all I can to turn travel over some other thoroughfare.

Genoa was founded 200 years before Christ, and yet is not a very big town after all. If I could have 2,000 years in which to build a town and couldn't get up a bigger, better and cleaner town, I would cease to be a townsman and enter into some other business by which to obtain a livelihood.

Genoa is mainly celebrated in history for being the birthplace of the man who discovered America; and yet he was not strictly speaking born in Genoa, and did not discover America. Such is the case with our gods and goddesses melt away under the terrible alchemy of years, and history, that at first crowns the obscure with a wreath of laurel, at last tears down the name she has worked for years to carve and fills the hungry mass of oblivion with the insensate dust. One after another heroes, discoverers, poets and artists fade away. William Tell, Columbus, Shakespeare and many others have suffered again and again at the hand of the historical vampire, and it would seem that none of us are absolutely safe. The youngest of us may yet live to learn that Lydia E. Pinkham was not the author of her own vegetable compound. Thus we live and labor for half a century to perfect a balm that will knock the blind staggers higher than Cleopatra's kite, and at last a vandal history comes along and smashes it to bits. I wonder that we have so much courage and lofty ambition as we have.

The first dog was elected in 1839. I do not know what the duties of a dog were, nor what salary he received; but I am led to believe that the pay was good. Genoa is a great place for a building of ships. Elegant household furniture is made here also, such as chairs, tables, cabinets and other articles of vertu. "Be virtuous and you will be happy" is the motto of the Genoese. They believe in having a motto whether they use it or not.

Ten years ago Genoa had a population of about 162,000, but I think there are more here now. I thought I counted more bays there than that, and there must have been at least 200 people there who were not identified with that industry. I have always done what I could in America to relieve want, but where want seems to be the normal condition I allow nature to take her course. The beggars of Italy glory in their shame. They are glad they thought of it instead of yielding to a weak and foolish temptation to fritter away their young lives in animal labor.

We arrived in Verona day before yesterday. Most every one has heard of the "Two Gentlemen of Verona." This is the place they came from. They never returned. Verona is not noted for its gentlemen now. Perhaps that it is the reason I was regarded as such a curiosity when I came here. Verona is a good deal older than Chicago, but the two cities have points of resemblance after all. When the southern simoon from the stock yards is wafted across the vineyard orchards of Chicago and a load of Mormon emigrants get out at the Rock Island depot and begin to move around and squirm and emit the fragrance of crushed Limburger cheese, it reminds one of Verona.

A Brass Band at His Funeral.

BOSTON, Mass., April 15.—Mr. Josiah F. Twiss, of Hollis, N. H., a man of eccentric habits of thought and manner, died at his home in that place to-day. The provisions of his will were that the funeral music should be by a brass band, which should be paid \$40 for its service; that his body should be buried under a clump of balm of Gilead trees, which he set out a few years ago; that \$20 should be expended for peanuts and candy with which to treat the mourners; that his wife should have half of his property, his six children \$2 each, and that \$1,000 be held in trust forever for the purpose of educating his children's children in the generations to come. The will was presented to the Judge of Probate, who refused to set it up. His property was therefore, be disposed of in accordance with the State law.

The Pretty Women of the Cabinet.

New York World. Mrs. Vilas, the wife of the Postmaster General, is the smallest lady in the Cabinet, and by some called the beauty of the Cabinet. But she will be obliged to divide the honors there with Mrs. Manning, although they are entirely different types. Mrs. Vilas has a round, full figure, in complexion she is inclined to be dark, though her hair, which what could be called a brunette; her hair is a dark brown, and her eyes are brown. Her features are very small and regular. Her hair she dresses high, the front being waved, parted and brushed loosely back from her face. She seems quite timid in her manner, and is apparently not quite certain that she likes all the ceremony to which she is now being introduced. Mrs. Manning, the wife of the Secretary of the Treasury, is quite tall and slight in figure. Her figure is very graceful, and one which carries rich draperies with much grace. Her small head is thickly

covered with soft, light brown hair, which she dresses high, with a soft, curling fringe across the forehead. Her eyes are a dark gray, not large, but expressive. Mrs. Manning is easy and cordial in her manners, and always seems to have a pleasant word for each of her callers when receiving.

Mr. Cleveland's Diversion.

[Continued Post.] As to summer work the President intends to do much as he did while Governor, taking only a short vacation. Most of his summer will be spent in Washington. The only pleasure excursion which he expects to make is a fishing trip in Northern New York, and it may not be possible to do that. The other day, when I asked him when he intended to rest, he said he had more to do before Congress convened than he possibly could do, and that he needed every moment that he could find. He hopes to become acquainted with the business of the executive office before December, so that his first message can be written with a proper understanding of the subjects to which it relates. The President now works many hours each day, but his health is good. He seldom neglects his drives and he enjoys them greatly. The country is new to him, and nearly every day he is enabled to take a different drive. Thus far he has not left the White House grounds once on foot, yet in Albany he was very fond of walking. He never rides on horseback, and I doubt if he knows how.

Rolled Up by the Wave.

Kansas City Times.) A Democratic Mayor in Topeka for the first time in its history

"Deeper than e'er plummet sounded" some people's eulgs seem to come from, yet a bottle of Dr. Kell's Cough Syrup will cure them. It goes away down to the bottom of matters and works wonders. Pleasant to take and good for coughs, colds, croup, bronchitis, etc.

TUTT'S PILLS

"THE OLD RELIABLE." 25 YEARS IN USE.

The Greatest Medical Triumph of the Age

Indorsed all over the World

SYMPTOMS OF A TORPID LIVER.

Loss of appetite, Nausea, bowels costive, Pain in the Head, with a dull sensation in the back part, Pain under the shoulder blades, Fatness after eating, with a distention of the abdomen, or body or mind, Irritability of temper, Low spirits, Loss of memory, with a feeling of having neglected some duty, weariness, Dizziness, Fluttering of the Heart, Dots before the eyes, Yellow Skin, Headache, Restlessness at night, highly colored urine.

IF THESE WARNINGS ARE UNHEEDED, SERIOUS DISEASES WILL SOON BE DEVELOPED.

Gray Hair or Whiskers changed to a glossy black by a single application of this DYE. It imparts a natural color, acts instantaneously. Sold by Druggists, or sent by express, on receipt of \$1.00.

Office, 44 Murray St., New York.

FOX'S

"BOOK OF MALTBY" contains many beautiful stories of most astonishing suffering. But nothing other than a story or picture, can be more distressful than the sharp, severe, shooting pains daily and nightly endured by those who are martyrs to the most terrible torment, Neuralgia. Get rid of this martyrdom is the first business of all who suffer.

ATHLOPHOROS regenerates painful nerves,

and drives out the horrors of Neuralgia.

ATHLOPHOROS gives health to Rheumatic

sufferers whom the most skillful physicians have been unable to heal.

ATHLOPHOROS operates on the blood, muscles,

and joints, and dissolving the acid that causes Rheumatism, removes them from the system.

ATHLOPHOROS is pronounced by all who

have tried it an infallible specific for those obstinate and painful diseases.

Read the testimony of one of the

sufferers. David Little, Sumner, Bannor Co., Iowa, writes:

"I am past 75 years of age, have had the Rheumatism three years and eight months, lost much of my weight; could not walk, but shuffled along on crutches; could not sleep; nerves shattered, no strength in my hands, wrists, knees or feet. But thanks be to God for your great discovery! The medicine arrived Saturday night. I took a dose Sunday morning, felt it all over me, and kept on with it. Monday morning I got up and dressed myself, and walked out into the kitchen without the aid of crutches or cane, and wished them all a happy New Year. I feel well, am gaining in strength, and once more enjoy life. Wish I could put ATHLOPHOROS in the hands of every sufferer from this terrible disease."

ATHLOPHOROS CO., 112 WALL ST., NEW YORK.

SOLELY IMPORTED BY N. R. STANTON, NEW YORK.

BALL'S

HEALTH PRESERVING CONSETS

THE ONLY CORSET made that can be returned by its purchaser after three weeks wear, if not found perfectly satisfactory.

In every respect, and in price, it is unequalled. Made in a variety of styles and prices. Sold by druggists and everywhere. Beware of worthless imitations. None genuine unless it has Ball's name on the box.

CHICAGO CORSET CO., Chicago, Ill.

A QUESTION ABOUT Brown's Iron Bitters ANSWERED.

The question has probably been asked thousands of times: "How can Brown's Iron Bitters cure everything?" Well, it doesn't. But it does cure any disease for which a reasonable physician would prescribe it. HOGS. Physicians recognize iron as the best restorative agent known to the profession, and inquire of any leading chemist firm will substantiate the fact that there are more preparations of iron than of any other substance used in medicine. This shows conclusively that iron is acknowledged to be the most important factor in successful medical practice. It is, however, a remarkable fact, that prior to the discovery of BROWN'S IRON BITTERS no perfectly satisfactory iron combination had ever been found.

BROWN'S IRON BITTERS

does not injure the stomach, and produces constipation—all other iron medicines do. BROWN'S IRON BITTERS cures Indigestion, Biliousness, Weakness, Depression, Malaria, Chills and Fevers, Tired Feeling, General Debility, Pain in the Side, Back or Limbs, Headache and Neuralgia—for all these ailments iron is prescribed daily. BROWN'S IRON BITTERS, however, does not cure in a minute. Like all other thorough medicines, it acts slowly. When taken by one the first symptom of benefit is renewed energy. The muscles then become firmer, the digestion improves, the bowels act freely. In severe cases the effect is usually more rapid and marked. The eyes begin at once to brighten; the skin clears up; the complexion improves; the nervous system disappears; functional derangements become regular, and if a nursing mother, abundant sustenance is supplied for the child. Remember, Brown's Iron Bitters is the ONLY iron medicine that is not injurious to the system and does not produce constipation. The Genuine has Trade Mark and crossed red lines on wrapper. TAKE NO OTHER.
